GGC WorkCare News & Updates

## eScreen Updates

eScreen is a platform we utilize to process drug screens and many occupational medicine services. Over the last few weeks, we have been installing eScreen's newest eReader +. You as the client should not experience any changes on your side, however you may see the previous "xCup" called eCup+ 10- xCup 10. The drugs tested are the same and the machine processes the tests much quicker.

### Monthly Question

**Q: Do DOT certifications require a drug screen.**

A: No. DOT certifications do not require a drug screen. All DOT certifications do require a urinalysis to check for sugars. A drug screen may be beneficial if the applicant admits to prior drug use.

### ONLINE BILL PAY

The online bill pay feature is back on the GGC WorkCare webpage. You can find it here: <https://www.gravesgilbert.com/departments/workcare/>

### Our Newest Location

Walk In & WorkCare  
Available 7 Days a Week

405 S L Rogers Wells

Glasgow, KY

### STAFF SPOTLIGHT

We would like you to meet our practice manager, Melissa Pursley. Melissa has worked for GGC for 25 years.

Fun Fact: She loves the band KISS, and has been to 4 of their concerts.

If you have any questions, she can be reached at [pursley@m@ggclinic.com](mailto:pursley@m@ggclinic.com)
