

GRAVES GILBERT CLINIC

Our Foundation

For over 80 years, G.Y. Graves and J.T. Gilbert forged an unlikely partnership to combine medical and surgical services and committed to the continuum of patient care. In 1941, the first multi-specialty group in the South Central Kentucky region was formed. Today, Graves Gilbert Clinic is the largest Multi-Specialty Physician-Owned clinic in the state of Kentucky with more than 200 providers, representing over 25 medical specialties in over 25 locations throughout the region.

Specialties

With over 30% of the Providers in South Central Kentucky working with Graves Gilbert Clinic, community members can count on a robust referral network to enhance and streamline the continuum of care.
